

Blanket washer enhancement : Reduces 50% of waste
copies during washing
ROI : about 8 Months

DESCRIPTION:

- 0% VOC **ECO 101** cleaning solution is applied under very precise quantity control across the complete web width , prior to the first printing unit. This creates a perfect layer of cleaning solution around the blanket cylinder, reducing up to 50% the washing time and cloth consumption of the existing blanket washer.
- Combiwash is available for all type of presses such as Goss, Manroland, Kba, Hantscho. It works with all kind of existing Automatic blanket washing systems, brush; cloth or pre wet.

ADVANTAGES

- Waste copies reduced.
- Highest cleaning quality .
- Washing cloth reduced.
- Changing cloth time saving.
