

#### DESCRIPTION:

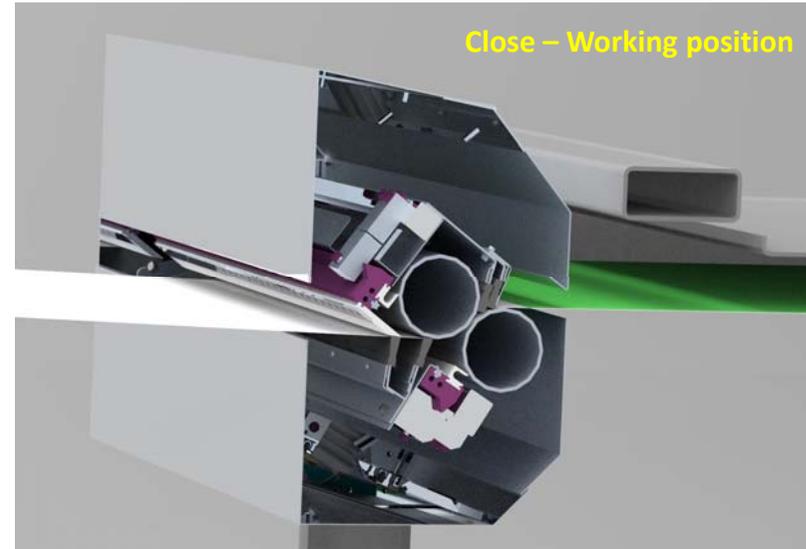

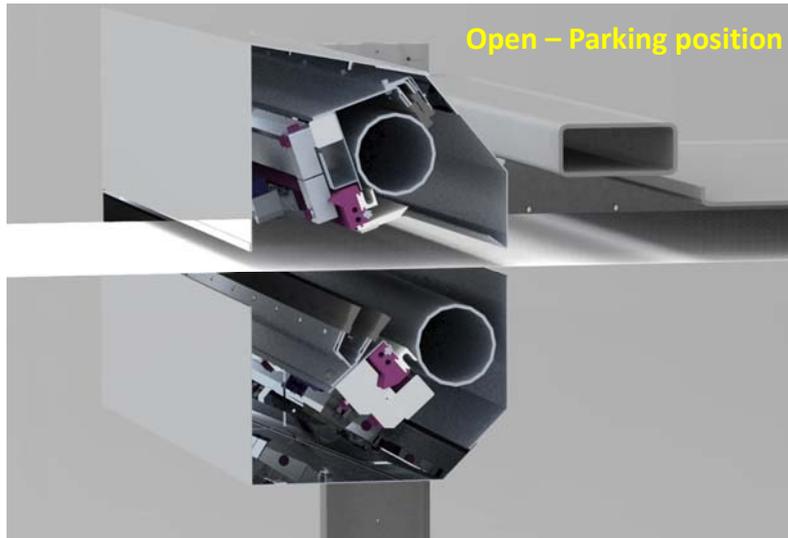

- The 0% VOC **ECO 101** cleaning solution is applied across the complete web width prior to the first printing unit. This creates a perfect layer of ECO 101 (0% VOC 100% BIODEGRADABLE) cleaning solution around the blanket cylinder reducing up to 50% of the washing time and cloth consumption of the existing blanket washer. Works equally well with brush systems
- CombiWash is available for all Web Offset presses including in-line and 4 high configuration. It works with any kind of existing Automatic Blanket Wash Systems.

#### ADVANTAGES

- Waste copies reduced
- Cleaning Quality enhanced and dripping eliminated
- Cloth Consumption reduced
- Press downtime reduced (cloth changing and wash time)
